Work Resumed

In Pass Mines

With the penalty clause aban-
doned and the working agree-
ment of 1917-1919 in effect, as
proposed by R. F. Green and
recommended by the coal com-
missioner, W. H. Armstrong,
granting the men an increase
all round on the old agreement
of 23 1/2 per cent, the miners of
District 18 picked up their tools
and went to work on Tuesday,
after an idle period of more
than two months.

The miners' locals on Sat-
urday practically unanimously
voted to adopt the proposed
agreement.

There are not full crews at
work yet, and for a time the
production will be seriously
handicapped. During the past
month or two large numbers of
miners have moved to other
parts from here and many of
them have moved their fami-
lies and effects with them, with
no intention of returning to the
mining fields. As a result it is
now necessary that something
be done to augment the mine
labor supply.

It is stated that the operators
have appealed to Commissioner
Armstrong to do something to
overcome the labor shortage.

Hundreds of cars are being
rushed into this district, and
every effort is being made by
the mine companies to cope
with the demand.

Acknowledges Contribu- tions From Blairmore

The following letter has just been
received by F. Wright, local sec-
retary of the Returned Soldiers' In-
stitution:

St. Dunstan's, 131,
Regent's Park, N.W. 1,
June 5th, 1917.

Dear Sir:

Many thanks for your letter
containing a most welcome donation
of Seventeen Pounds, Ten Shillings
and Sixpence, the proceeds of a St.
George's Tag Day organized in Blair-
more, Alberta, Canada, under the
supplies of the local Regimental Veter-
an and Hospital, for which I enclose an
official receipt.

We are, believe me, deeply ap-
preciative of this very practical manifes-
tation of sympathy with what we are
doing here for the gallant men under
our gaze, on whose behalf I trust you
will accept sympathy, and convey to
your committee, an expression of
most sincere and cordial thanks.

Yours faithfully,

ARTHUR FRANKS,
Chairman (Hinged Soldiers) and
Sailors' Corp Committee.

Francis Wright, Esq.,
Secretary-Treasurer,
Returned Soldiers' Bureau,
Blairmore, Alberta.

Yesterday evening Rev. Mr.
Irwin, of this circuit, gave a very
thrilling talk on national flags. He
spoke of the large sums of money
spent during the last European war;
patriotism, while many of the soldiers'
wives who have sacrificed their
husbands for the empire, are work-
ing hard to keep body and soul
together. He gave a very touching
incident where a friend after fight-
ing with Oriental diseases in the
British army for eight years secured
his discharge, being very weak. He
returned to London, and after
walking in the parks of the metrop-
litan till starvation stared him
in the face, was forced to clean
crockery for a bare livelihood. He
urged us Canadians to put forth
better efforts to keep the home fires
burning more brightly so that
when the boys return home they
will find that we have indeed ac-
cepted their sacrifices. — Lon-
don correspondent to *Ladbroke
Herald*.

Caught in Passing

(By The Rocky Mountain Philosopher)
Ye mountains grand that overlook the plains,
Ye lofty peaks that rise to empress heights,
Toll ye not as of counsel age past—
How the Almighty wrought in wondrous ways—
A leaf from Nature's BOOK to teach us
We should observe look and how low at
His feet.

A clean mind makes clean speech,
Look out for the man that has two
eyes and only looks at you with one. He
is not an optical illusion.

Dad says "One tooth in the jaw is better
than two out." Dad's a philosopher.

I would like to see a boy riding a goat,
But no man with a card in the sleeve of
his coat.
I would like to see the mayor wear a
necktie
And sweat the blasphemers right over the
eye.

There are some fellows you meet on the
street that only throw up their shoulders
when you ask them a fair question,
What's the matter with them? "M. Vitas
dances?"

We've got a job to do, my boys,
Over there in France.
We've got to lick the Kaiser's bunch
And on their necks to dance.

Each one must do his share, my boys,
East, west, and north and south;
Then let the slacker of Quebec
Enlist and shut his mouth.

Billy Sunday recently remarked that if he turned "hell" upside down we should find "Made in Germany" stamped on the bottom. We'll take Billy's word—we don't want the job. We tried to turn a beehive upside down once and got "stung."

One of the happest creatures in Blairmore on Sunday night was Mrs. Saluti's cat, which became the fortunate recipient of a fish, the result of a whole day's fishing at Crow's Nest lake. The chief mourner was Mr. Gzowski, who lost his trophy after having picked it a distance of over ten miles.

A rather serious fire occurred on Sunday night in the Paden rooming house on State Street, which with its contents was practically demolished. The fire is supposed to have originated from a defective electric wire passing through some of the back rooms, which were practically gutted before the flames could break loose. The damage done would amount to about \$1000, which we understand is partly covered by insurance.

A large "bug" captured somewhere around Goat Mountain, was left at our office for safe-keeping this week, and has been attracting considerable attention. It measures about 14 inches in length and about two inches in circumference, and according to some of our Italian neighbors is larger than the Italian jet boat. Someone suggested that because of its bulging movement it should make an excellent paper for some of the ancient people of Ford cars.

Remembering the old saying that "Faint heart never won fair lady," the young man dared, and succeeded in planting a fairly respectable kiss somewhere behind her ear. The young woman arose hastily and walked into the other room.

"Pa," she said, "Mr. ——— wants to see your new gun."

"Alright," said the old man, delighted with the chance of showing off his new gun. Taking it from the rack, he slipped into the drawing room. The young man broke four windows in getting out, and they last seen was still running bareheaded towards Frank.
